

LOW-IMPACT WORKS TO COMMENCE AT MT WILLS GOLD MINES

Mt Wills Gold Mines Pty Ltd (a wholly owned subsidiary of ABA Resources Pty Ltd) has received the relevant approvals from DEWLP (Section 44 Permit) and acknowledgement from ERR, Heritage Victoria and Aboriginal Victoria to commence low impact exploration and underground infill drilling works at MIN 4921 at our Mt Wills Gold Mines site in accordance with the Mineral Resources (Sustainable Development) Act 1990 (MRSDA).

Preparation will commence in late June / early July 2019, with the low-impact exploration works scheduled to commence in September 2019, including:

- MMI Sampling
- Environmental baseline monitoring and reporting
- Underground infill drilling works

These works do not impact or trigger any of the historic fabric of the Mt Wills Historic Area.

ABA Resources will continue to keep the community, investors and other stakeholders informed on our progress with these works.

- Ends -
